

GS-TEK and OneWorld Management Group Selects QWEST Scientific to strengthen the distribution network in the US Western Region.

Huntington Beach, CA (Monday August 17, 2009).

OneWorld Management Group, a leading specialty Sales & Marketing strategy firm specialized in Biotech, Device, Research tools, in California in representing GS-TEK , a manufacturer of quality chromatography columns and supplies , including GsBp GC columns and LC columns , selects Qwest Scientific as the exclusive sales organization to promote and sell the GS-Tek line of products:

- GC Columns
- LC Columns
- Chromatography related supplies

This collaboration will cover, CA, NV, NM, WA, OR.

The Qwest Scientific team of experienced problem solvers works closely with industrial and laboratory users to supply them with reliable cost effective instrumentation as well as complimentary product lines including data systems such as LIMS, gas generators and other laboratory and process instrumentation. With 14 years of experience in the industry, Qwest provides a customer centric approach, offering extended personalized pre and post sales technical support services. With a database of 12,000 customers and prospects in the West, Qwest is the ideal sales partner to promote this line of product. Adding the supplies category will offer customers and complete tools portfolio in the separation sciences category.

Qwest will utilize its customer interaction expertise spanning face-to-face, telephone, email sales, customer seminars on site and via the internet to best promote the entire GS-TEK portfolio.
